

CDA Foundation Partners with San Joaquin Dental Society to Provide 2010 Allied Dental Health Student Scholarships

The CDA Foundation has partnered with the San Joaquin Dental Society to offer the Allied Dental Health Student Scholarship, which provides dental hygiene, dental assisting, and dental laboratory technician students who are enrolled in a California program with the opportunity to apply for an award of up to \$1,000 toward completing their education.

We are pleased to be joining the CDA Foundation to help ensure a sustainable oral health workforce by providing educational scholarships to students enrolled in California dental programs. Supporting student achievement helps provide an opportunity for students to succeed in their academic programs and increase career opportunities in both traditional and nontraditional practice settings, such as clinics in underserved communities.

The Allied Dental Health Student Scholarship award will be based on responsibility/leadership, community organization involvement, any outstanding achievements, and possess a positive desire to have a career in the dental field. The deadline to submit an application to the San Joaquin Dental Society is Friday, March 12, 2010. For interested individuals, you may obtain more information about this scholarship program, criteria, retrieve an application by contacting the San Joaquin Dental Society via telephone at 209-951-1311 or via e-mail at dentalsociety@sbcglobal.net or check the homepage of the SJDS website at www.sjds.org.
